1031 Exchange Defined

Section 1031 of the IRS tax code offers real estate investors one of the last great investment opportunities to build wealth and save taxes. By completing a 1031 Exchange, an investor (taxpayer) can defer the capital gains taxes recognized on selling investment property by reinvesting those proceeds into another like-kind investment property. The regulations that govern 1031 Exchanges are very specific and must be followed to have a successful exchange.
